The long-awaited new edition of *Pathology and Genetics of Tumours of Haematopoietic and Lymphoid Tissues 4th edition* is expected to be published in August 2008. Ensure that your library is complete by ordering a copy of this exciting Blue Book by **ordering a copy today**.

WHO Classification of Tumours of Haematopoietic and Lymphoid Tissues is the second volume of the 4th Edition of the WHO series on histological and genetic typing of human tumours. This authoritative, concise reference book provides an international standard for oncologists and pathologists and will serve as an indispensable guide for use in the design of studies monitoring response to therapy and clinical outcome.

Diagnostic criteria, pathological features, and associated genetic alterations are described in a strictly disease-oriented manner. Sections on all recognized neoplasms and their variants include new ICD-O codes, incidence, age and sex distribution, location, clinical signs and symptoms, pathology, genetics and predictive factors.

The book, prepared by more than 130 authors from 22 countries, contains about 1,000 colour photographs, numerous charts and more than 2,500 references.
